Shareholder Summary

Analyst Coverage

Leadership with Significant Royalty Experience

A team of 8 total employees led by the former CEO of Maverix Metals

MANAGEMENT

Dan O'Flaherty
CEO & Director

Former CEO of Maverix Metals, a gold royalty company that was acquired by Triple Flag Precious Metals in 2023

Victoria McMillan
CFO

Director of Lundin Mining and former Board member of B.C. Hydro

Paul Jones
President

20+ years of experience in various senior management roles at mining companies and investment banking

Diego Airo
EVP, Project Evaluation

Professional Engineer previously at Maverix Metals, Capstone Copper and Kinross

Chris Haubrich
VP, Corp. Development

15+ years of mining industry experience in engineering studies, operations, and investment banking

Craig Rollins
General Counsel

Practicing corporate and securities lawyer and current General Counsel to Pathway Capital

Brent Bonney
VP, Capital Markets

Former VP Corporate Development at Maverix Metals

Peter Winters
VP, Finance

Former Controller at Maverix Metals

BOARD OF DIRECTORS

Greg Smith
Chairman

Co-founder and former President & CEO of Equinox Gold

Marcel de Groot
Director

Co-founder and President of Pathway Capital

Michael McDonald
Director

VP Corporate Development at B2Gold

Liz McGregor
Director

Former CFO of Tahoe Resources and currently a director of Kinross Gold and Orla Mining

Mark Backens
Director

35+ years of global mining experience formerly with Alio Gold, Meridian Gold, Placer Dome and Goldcorp

Rapid but Disciplined Growth Focused on Cash Flow

NEW MINES COMING ONLINE

TOEGA

Q3 2026 startup

CUIÚ CUIÚ

Q4 2026 startup

SANTA RITA UG

Construction decision expected soon

FULL YEAR PRODUCTION FROM 2025 ACQUISITIONS

KOLPA

Acquired in Q2 2025

ROSH PINAH

Acquired in Q3 2025

SANTA RITA OPEN PIT

Acquired in Q3 2025

Billions in capital invested by the operators to the benefit of Versamet

Multiple Sources of Growth Opportunities

NEW MINE FINANCING

GREENSTONE

Acquired a gold stream on the Greenstone mine for \$52.5M

USE OF PROCEEDS:
Construction capex

THIRD PARTY ROYALTIES

B2 ROYALTIES

Acquired a portfolio of non-core royalties from B2Gold, including royalties on Kiaka and Toega

ACQUISITION FINANCING

KOLPA

Acquired a by-product copper stream on the Kolpa mine for \$35M

USE OF PROCEEDS:
Fund a portion of the mine acquisition

EXPANSION FINANCING

ROSH PINAH

Acquired a by-product silver stream on the Rosh Pinah mine for \$85M

USE OF PROCEEDS:
Fund a major expansion at the mine

Dual-Track Growth Strategy

Asset Portfolio

ORGANIC GROWTH + STRONG ACQUISITION PIPELINE

	Predominantly precious metals
	Cash flowing or clear path to production
	Expansion / Exploration / Mine life extension potential
	Capable operators
	Mining friendly jurisdictions

Capital Markets

CAPTURE HIGHER VALUATION MULTIPLES

	Increase trading liquidity
	Research analyst coverage
	Broaden institutional investor base
	Upcoming U.S. listing
GDXJ	Future potential index inclusion
	Future potential dividend policy

Compound Effect: Each acquisition grows both the asset portfolio & capital markets profile

An Emerging Cash Flow Driven Mid-Tier

2026F Cash Flow (\$M)

Cash Flowing Assets

GREENSTONE
Canada

1.26% Gold Stream ¹ **Operated by Equinox Gold**

- Mine life of 15 years averaging 330 koz of gold per year ²
- Stream has minimum payments that commenced Q4 2023 and is capped at 63 koz of gold delivered to the stream

ROSH PINAH
Namibia

90% Silver Stream ⁵ **Operated by Appian Capital**

- 55+ year operating history
- Major expansion underway and expected to be completed in 2026

KIAKA
Burkina Faso

2.7% NSR ³ **Operated by West African Resources**

- First gold poured in June 2025 → currently ramping up to full capacity
- Q4 2025 production of 62 koz of gold
- 2024 Feasibility Study forecasts production of 234,000 ounces of gold per year over a 20-year mine life ⁴

KOLPA
Peru

95.8% Copper Stream ⁶ **Operated by Endeavour Silver**

- 25+ year operating history within a highly prospective and underexplored district
- Expansion from 1,800 tpd to 2,500 tpd underway
- 2026 guidance of 650 – 750t of Cu ⁷

BLACKWATER
Canada

SANTA RITA OP
Brazil

MERCEDES
Mexico

Organic Growth

TOEGA
Burkina Faso

2.7% NSR ⁸
Operated by West African Resources

- First production expected in Q3 2026
- Expected open pit mine life of 8 years with annual production of 70 – 80 koz Au with additional underground mine life potential ⁹

EL PILAR
Mexico

1% GRR ¹¹
Operated by Southern Copper Corp.

- Copper greenfield project located 45km from Southern Copper's Buenavista mine
- Expected annual production of 36 kt Cu over a 13-year mine life ^{12,13}
- Expected start of production in 2029 ¹⁴

**SANTA RITA
UNDERGROUND**
Brazil

2.75% NSR
Operated by Appian Capital

- 20+ year mine life using sub-level caving method with average annual production of 31 kt nickel equivalent ¹⁰
- FID expected in the near-term

CUIÚ CUIÚ
Brazil

1.5% NSR
Operated by Cabral Gold

- Updated PFS released in July 2025; targeting first gold pour by the end of 2026 ¹⁵
- Significant sulphide exploration potential

Large Scale Optionality

HACKETT RIVER
Canada

2% NSR – Glencore Canada

One of the largest undeveloped silver-rich VMS projects globally

CONVERSE
USA

1% NSR – Roxmore Resources

One of the largest undeveloped gold projects in North America

PRAIRIE CREEK
Canada

1.2% NSR – NorZinc

Large scale zinc-silver project with significant existing resource & exploration potential

MASON
USA

0.4% NSR – Hudbay

One of the largest undeveloped copper porphyry projects in North America

ZUUN MOD
Mongolia

1.5% NSR – Erdene Resource

One of the largest undeveloped molybdenum-copper deposits in the Asia region

MOCOA
Colombia

2% NSR – Copper Giant

Large scale copper-moly project with significant existing resource and exploration potential

Asset List

- Producing
- Near-Term Development
- Long-Term Development / Exploration

- 1) Greater of i) 1.26% of monthly production at Greenstone Mine (100%), or ii) 350 koz Au, until 63,000 ounces Au have been delivered; gold deliveries subject to per-ounce payments equal to 20% of the prevailing spot gold price at time of delivery
- 2) 2.7% NSR royalty (100% basis) until 2.5 Moz Au produced; 0.45% NSR royalty on the next 1.5 Moz Au
- 3) Stream decreases to 45% after 3.1 Moz of silver is delivered to the stream
- 4) Greater of i) 95.8% of produced copper and ii) 0.03 tonnes of copper per tonne of produced lead until 6,000 tonnes of copper delivered; 71.85% of produced copper until 10,500 tonnes of copper delivered; 47.9% of produced copper thereafter; copper deliveries subject to payments equal to 10% of spot price
- 5) 0.21% net smelter returns royalty applicable to approximately 35–50% of production (Versamet estimate)
- 6) 2.7% NSR royalty (100% basis) until royalty payments total \$22.5 million; 0.45% NSR royalty thereafter until 1.5 Moz produced
- 7) 1.0% gross revenue royalty excludes first 85 Mlbs of payable copper production

Forward Looking Statements

This presentation contains “forward-looking statements” and “forward-looking information” (collectively, “forward-looking information”) within the meaning of applicable Canadian securities legislation. All information contained in this presentation, other than statements of current and historical fact, is forward-looking information. Often, but not always, forward-looking information can be identified by the use of words such as “plans”, “expects”, “budget”, “guidance”, “scheduled”, “estimates”, “forecasts”, “strategy”, “target”, “intends”, “objective”, “goal”, “understands”, “anticipates” and “believes” (and variations of these or similar words) and statements that certain actions, events or results “may”, “could”, “would”, “should”, “might” “occur” or “be achieved” or “will be taken” (and variations of these or similar expressions). Forward-looking information is also identifiable in statements of currently occurring matters which may continue in the future, such as, “is currently”, “allows/allowing for”, “will advance” or “continues to” or other statements that may be stated in the present tense with future implications. All of the forward-looking information in this presentation is qualified by this cautionary note. Forward-looking information is based on, among other things, opinions, assumptions, estimates and analyses that, while considered reasonable by Versamet Royalties Corporation (“Versamet” or the “Company”) at the date the forward-looking information is provided, inherently are subject to significant risks, uncertainties, contingencies and other factors that may cause actual results and events to be materially different from those expressed or implied by the forward-looking information. Forward-looking statements in this presentation include statements relating to: ongoing support from and alignment with large shareholders and partners; ability to build a metals royalty company that creates value for all stakeholders, supports industrial growth, and promotes responsible mining; ability to grow the business at pace; growth and projected revenue from the Company’s portfolio; the projected GEO growth over two years; the 2026 guidance GEO forecast; anticipated developments in the operations of the Company; expectations regarding the growth of the Company; expectations regarding future commodity prices; the business prospects and opportunities of the Company; estimates of mineral resources and reserves; the future demand for and prices of commodities; the future size and growth of metals markets; expectations regarding costs of production and capital and operating expenditures; estimates of the mine life of mineral projects; expectations regarding the costs and timing of exploration, development, construction, and production; and the success of exploration, development, construction, and production; gold delivery expectations; the timing and possible outcome of regulatory and permitting matters; goals; strategies; visions; planned future acquisitions; the adequacy of financial resources; and other events or conditions that may occur in the future or future plans, projects, objectives, estimates and forecasts, and the timing related thereto.

Forward-looking statements involve known and unknown risks, uncertainties, contingencies and other factors that may cause actual results and events to be materially different from those expressed or implied by the forward-looking information. The risks, uncertainties, contingencies and other factors that may cause actual results to differ materially from those expressed or implied by the forward-looking information may include, but are not limited to: the impact of general business and economic conditions; the absence of control over mining operations from which Versamet will purchase gold, other commodities or receive royalties from, and risks related to those mining operations, including risks related to international operations, government and environmental regulation; actual results of current exploration activities; conclusions of economic evaluations and changes in project parameters as plans continue to be refined; risks in the marketability of minerals; fluctuations in the price of gold and other commodities, fluctuation in foreign exchange rates and interest rates; volatile financial markets risks that may affect Versamet’s ability to obtain additional financing on acceptable terms; the completion of a public listing; required approvals or clearances from government authorities on a timely basis, and risks related to the business and strategic plans of Versamet. Should one or more risk, uncertainty, contingency or other factor materialize or should any factor or assumption prove incorrect, actual results could vary materially from those expressed or implied in the forward-looking information. Accordingly, the reader should not place undue reliance on forward-looking information. Versamet does not assume any obligation to update or revise any forward-looking information after the date of this presentation or to explain any material difference between subsequent actual events and any forward-looking information, except as required by applicable law.

This presentation also contains or references certain market, industry and peer group data that is based upon information from independent industry publications, market research, analyst reports and surveys and other publicly available sources. Although the Company believes these sources to be generally reliable, such information is subject to interpretation and cannot be verified with complete certainty due to limits on the availability and reliability of raw data, the voluntary nature of the data gathering process and other inherent limitations and uncertainties. The Company has not independently verified any of the data from third party sources referred to in this presentation and accordingly, the accuracy and completeness of such data is not guaranteed.

Non-IFRS Measures

We have included, in this document, certain performance measures, including GEOs which is a non-IFRS measure. The presentation of such non-IFRS measure is intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS. This non-IFRS measure do not have any standardized meaning prescribed by IFRS, and other companies may calculate these measures differently.

Technical and Third-Party Information

Except where otherwise stated, the disclosure relating to Rosh Pinah Zinc and Santa Rita is based on information publicly disclosed by the owners or operators of this property and information/data available in the public domain as at the date hereof and none of this information has been independently verified by Versamet. Specifically, as a royalty/stream holder, Versamet has limited, if any, access to the property subject to the royalties/streams. Although Versamet does not have any knowledge that such information may not be accurate, there can be no assurance that such third-party information is complete or accurate. Some information publicly reported by the owner or operator may relate to a larger property than the area covered by Versamet's interests.

"Inferred mineral resources" have a great amount of uncertainty as to their existence and great uncertainty as to their economic and legal feasibility. It cannot be assumed that all or any part of an inferred mineral resource will ever be upgraded to a higher category. Historical results or feasibility models presented herein are not guarantees or expectations of future performance.

All disclosure of scientific or technical information in this presentation has been approved by Diego Airo, P. Eng., VP Project Evaluation, a qualified person under National Instrument 43-101 – Standards of Disclosure for Mineral Projects.

All dollar figures contained herein are in U.S. dollars unless otherwise noted.
